

## Home Learning

<b>Subject</b>	<b>Mathematics</b>
<b>Year Group</b>	<b>10</b>

### Instructions on where home learning is stored

Moodle: <http://vle.canon-slade.bolton.sch.uk/>

Or follow the VLE link from the school website

### Instructions on how to access home learning

Logon to Moodle.

From the **Courses** tab select **Mathematics all courses**.

Select **Year 10** then **Foundation** or **Higher**.

Work is being allocated a week at a time so scroll down to the section which has the date of the start of the week.

You may need to access the following:

- **Kerboodle**

Login: First initial and surname. John Smith would be jsmith. If there is more than one pupil with the same initial and surname then the username may be jsmith1 or jsmith2 or jsmith3.

Password: Will be the same as your username UNLESS you have reset your password previously. When they first log in you will be asked to enter and confirm a new password. PLEASE KEEP THIS THE SAME AS THE USERNAME. If you have short username you may be told it is too short so try adding 123 on the end. Write this password in your school planner. If you cannot remember your password please email your class teacher who will reset it.

Centre: dra0 (this is the number zero!)

- **Maths watch** – video clips and online homeworks

<https://www.vle.mathswatch.com/>

Username: school username e.g. 12jsmith **but** you also need to put '@canon-slade' after.  
e.g 12jsmith@canon-slade

Password: **change** (Then click on 'login' as pressing enter doesn't always work.)

If you're having difficulties logging in, try putting a space before the @ sign, and if that's not working then email Mr Hesketh: [cph@canon-slade.bolton.sch.uk](mailto:cph@canon-slade.bolton.sch.uk)

- **My Maths Website** – includes interactive lessons and online homeworks

Username: **canon**

Password: **decagon**

## Instructions for work given

In each section you will see an **Instructions** document and a **Worksheets** document. Read the **instructions** sheet first. Each week you will be allocated some worksheet questions to work through in your exercise books. Answers will be provided so that you can mark your own work. You will also be given Mathswatch clip numbers which will help you in your work. The **Worksheets** document contains the questions you need to complete in your exercise books.

When you feel confident with the work you have been given to practise you must then try the **Mathswatch** assignment which will have been allocated to you. Please make sure that you have paper, a pen and possibly a calculator so that you can work things out if necessary before answering the questions. You must complete the Mathswatch assignment set each week. Your teacher will be monitoring these assignments carefully.
