

## Travelling by bus

The school is well served by a mixture of school and commercial bus services which stop outside the school. School bus services are planned and operated by the Local Council. In Greater Manchester this function is devolved to Transport for Greater Manchester. **Whilst the school does liaise with the TFGM and Blackburn with Darwen Council it has no direct responsibility for the provision or operation of these services.**

Detailed information about available services can be found at [www.tfgm.com](http://www.tfgm.com) and following the appropriate links.

**Although these services are currently in operation, the bus companies can withdraw them so there is no guarantee they will be maintained indefinitely. The information is updated when changes are made and can be referred to during the summer holidays for any revisions for September 2020.**

You will also find information regarding the IGO pass, a concessionary fares scheme introduced by TFGM for young people aged 5-16. Advice on how to apply for the pass and its terms of use can also be found here.

**\*\*You may find it easier to access the TFGM website via a link under 'Bus Information' on the top bar of the main page of the school website \*\*.**
